KPI Reporting

Strategy planning starts by performing all required strategy analysis. The preparation of analysis gives the leadership team about the clear understanding of market position and competitive ness. Performing proper analysis are very much essential to identify the strategic options and strategic choices. The outcome of strategy planning process is the projections for next 3 to 5 years depending on the industry type. The summary of strategy plan says how the value gap is closed over period of time to achieve desired results. The following are strategy analysis can be performed through fruStrategy.

Strategy Analysis

- ✓ SWOT Analysis
- ✓ PESTEL Analysis
- ✓ Porter's Five Force Analysis
- ✓ Four Corner Analysis
- ✓ Cause & Effect Analysis
- ✓ Force Field Analysis
- ✓ Tree Diagram Analysis
- ✓ Hoshin Kanri Analysis
- ✓ Value Chain/Business System Analysis
- ✓ Business Model Canvas
- ✓ Strategy Canvas

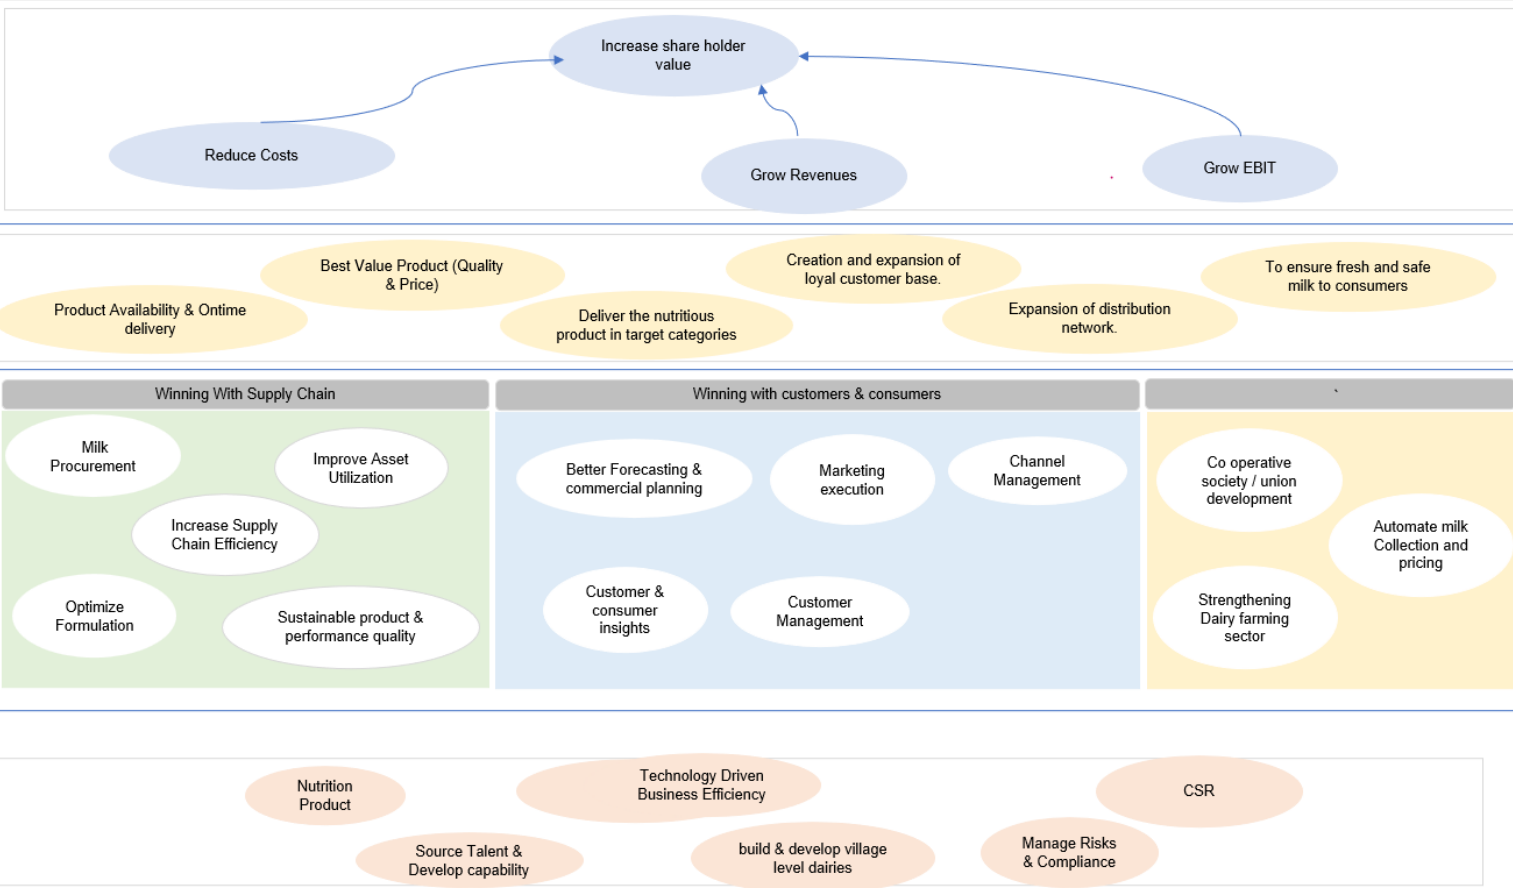

The overall output of strategy plan will be for three to five years. The value gap with current capabilities can be closed through strategic initiatives or objectives.

The strategy map becomes essential part of strategy translation. fruStrategy helps you define strategy maps for group company, strategic business units, shared services, and any specific department.

Strategy Translation & Strategy Mapping

A balanced scorecard is a performance metric used in strategic management to identify and improve various internal functions of a business and their resulting external outcomes. The balanced scorecard is built with four perspectives in general financial, customer, internal, and learning & growth.

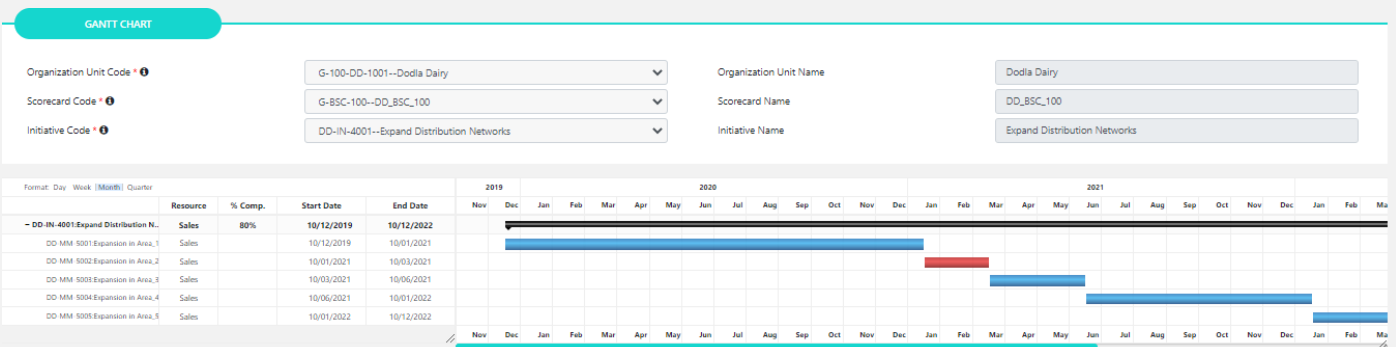

fruiStrategy helps you build balanced scorecard for based on industry best practices.

Balanced Scorecard & Initiative Management

FINANCIAL						
Objectives	Measures	Target	Actual	Performance	Status	
Increase shareholder value: DD-0b-2001	Return on invested capital	2000000	1854782	92.7391	Good ■	
	Total Shareholder Returns	2000000	16584432	829.2216	Good ■
